

CLAIMS

What is claimed:

- 5 1. A fence post assembly comprising:
 a fence post;
 a connector member for placement on a top end of said fence post, said connector
 having a body with a top end and a bottom end, wherein said bottom end is adapted to
 engage said fence post;
10 a lens member for placement on said top end of connector member, said lens
 member comprising a hollow body with a top end and a bottom end, wherein the hollow
 body includes sidewalls extending between said top and bottom ends to define an
 enclosed space, and wherein said sidewalls permit the passage of light there through and
 include a light diffusing means for dispersing light emanating from within the hollow
15 body; and
 a top member having a first end for engaging said top end of the hollow body of
 said connector member.
